IN THIS EDITION OF CITGO TODAY

2015 Healthy Rewards Program - Update

2015 Healthy Rewards Program - Update

We are diligently working to implement the 2015 Fuel Your Health/Healthy Rewards program and will roll out the all new and improved program on June 1.

Please keep in mind that to participate in the Healthy Rewards incentive program, you must be an active employee and enrolled in one of the CITGO medical plan options. If your spouse is enrolled in the health plan, they can also earn incentives by participating and completing the activities required in earning the incentive.

This year, we will have a new partner in administering our Healthy Rewards Program along with a personalized, interactive health experience all offered by UnitedHealthcare.

While we are in the process of implementing our new Healthy Rewards Program, we encourage you to schedule and complete your annual preventive physical with your medical provider. Because our new program will be slightly modified this year, we won't be requiring a physician's screening form as in the past.

Remember that each medical plan option covers In-network Preventive Care at 100% which means the deductible and coinsurance do not apply. Click [here](#) for more information regarding general preventive care guidelines or access UnitedHealthcare's personalized preventive care site at <http://www.uhcpreventivecare.com/>.

So don't delay, take advantage of your preventive care coverage today, and keep an eye out for more information about the all-new 2015 Healthy Rewards Program slated to begin on June 1.
